# Study Goal & Methods

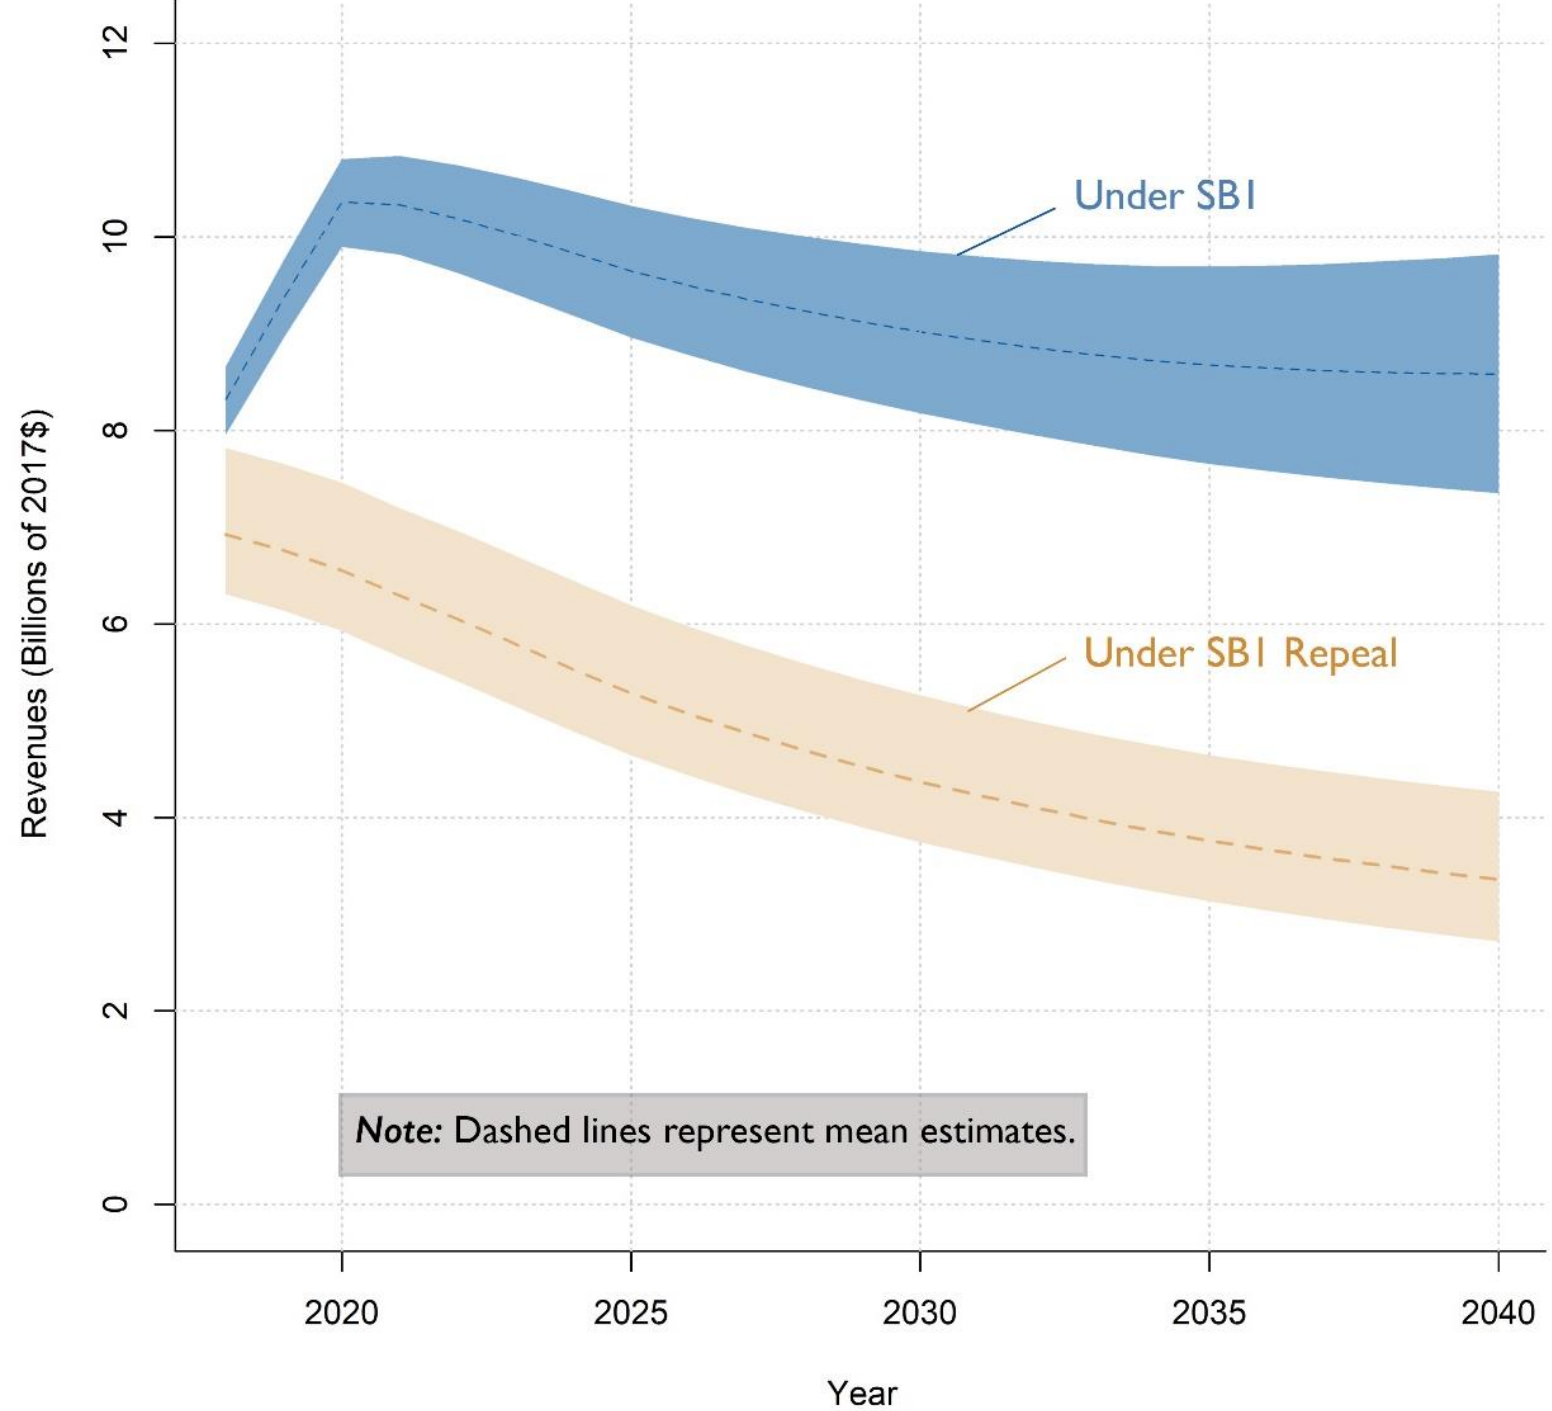

Goal: project transportation revenues through 2040

- Revenues collected by the State of California (e.g., state gasoline excise tax)
- Revenues spent only for transportation purposes (e.g., excludes VLF)

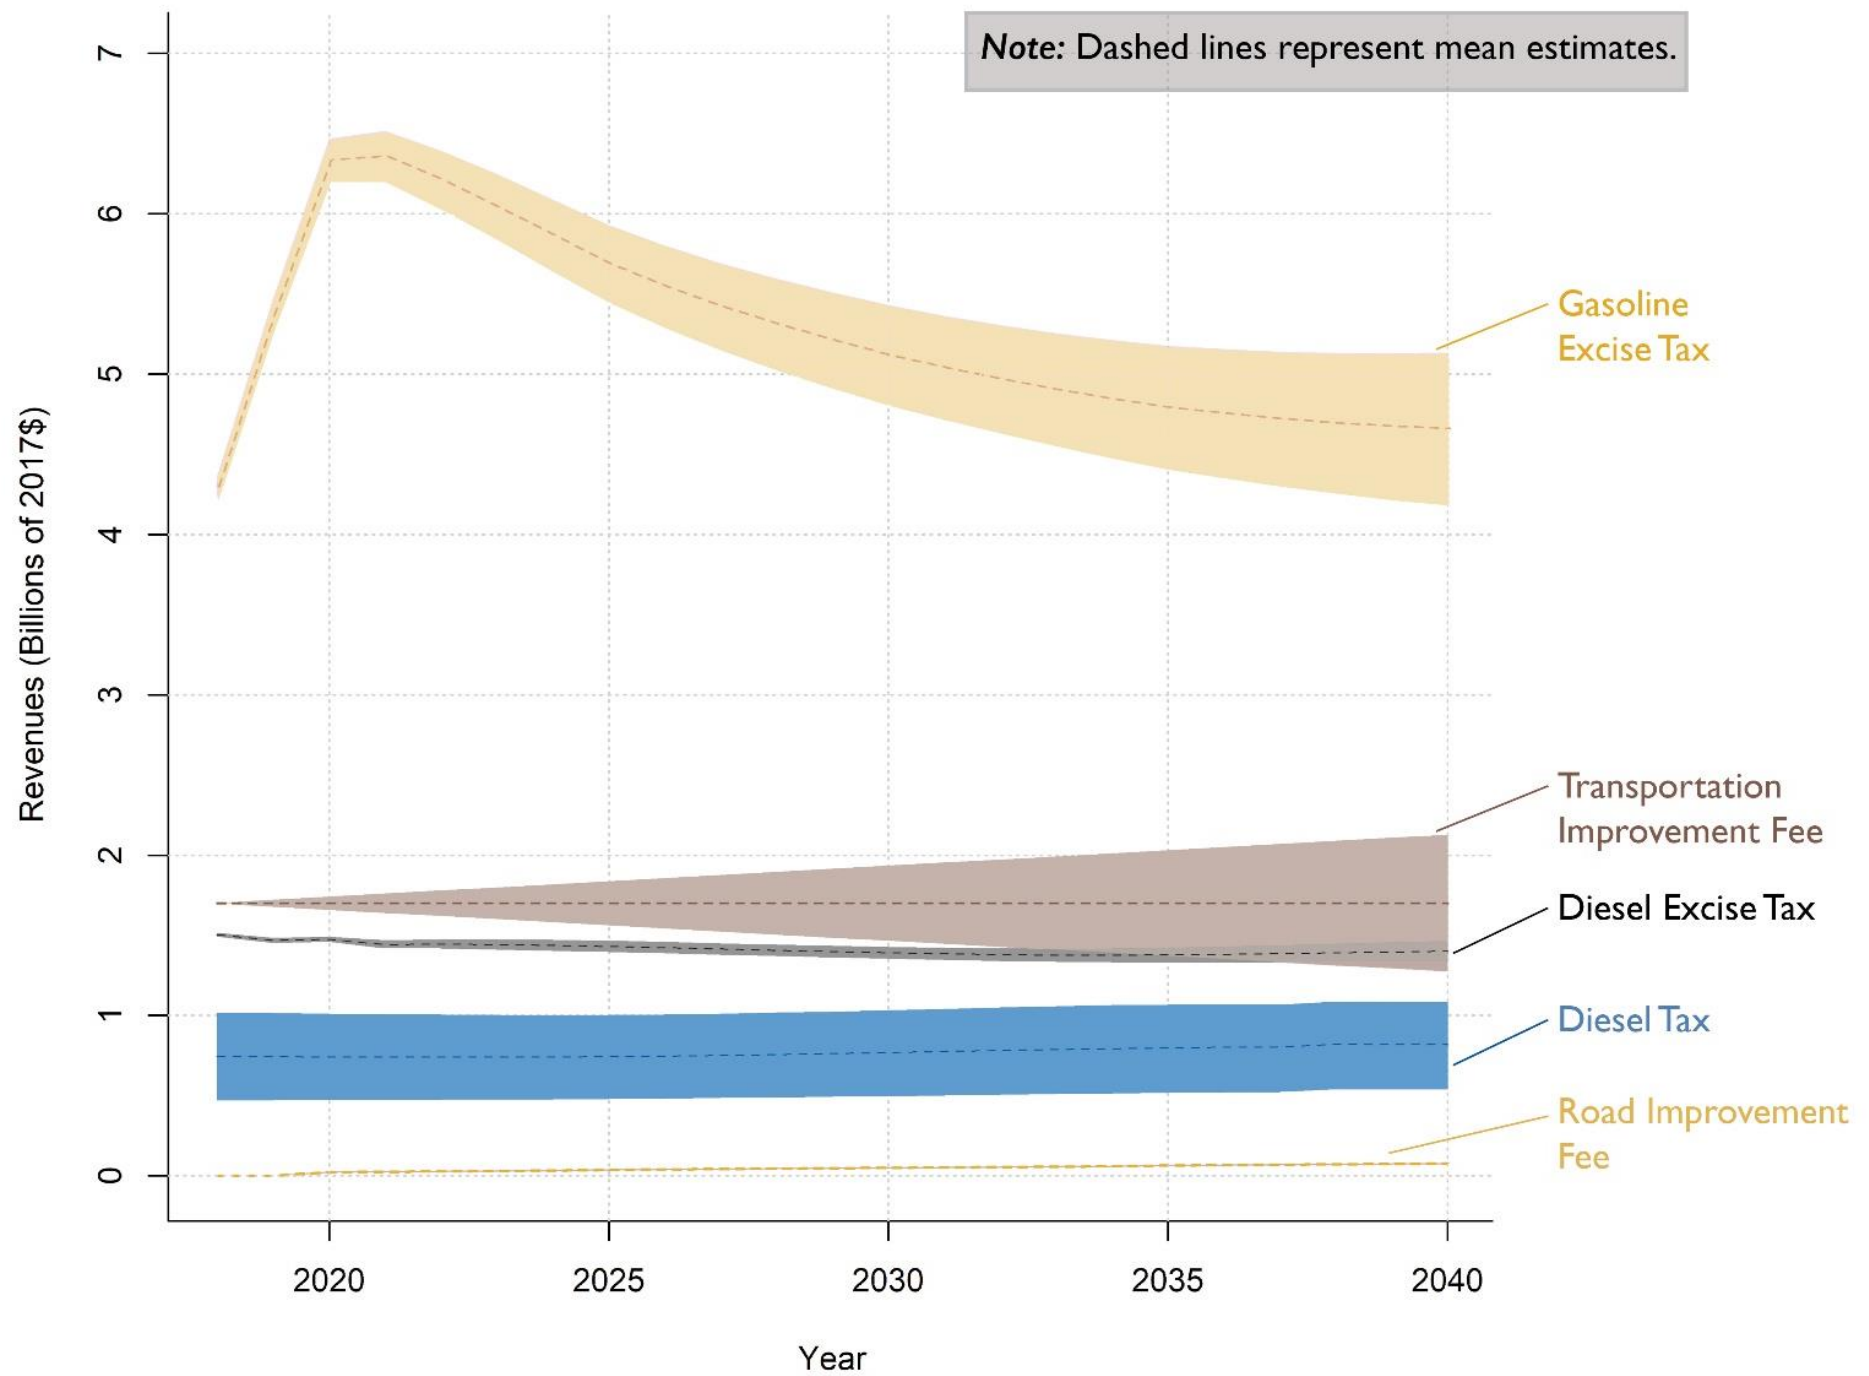

Method:

- Spreadsheet models
- Data from widely-used authoritative data sources (e.g., US EIA)
- Projections presented as ranges that encompass different population, economic, and technological trends

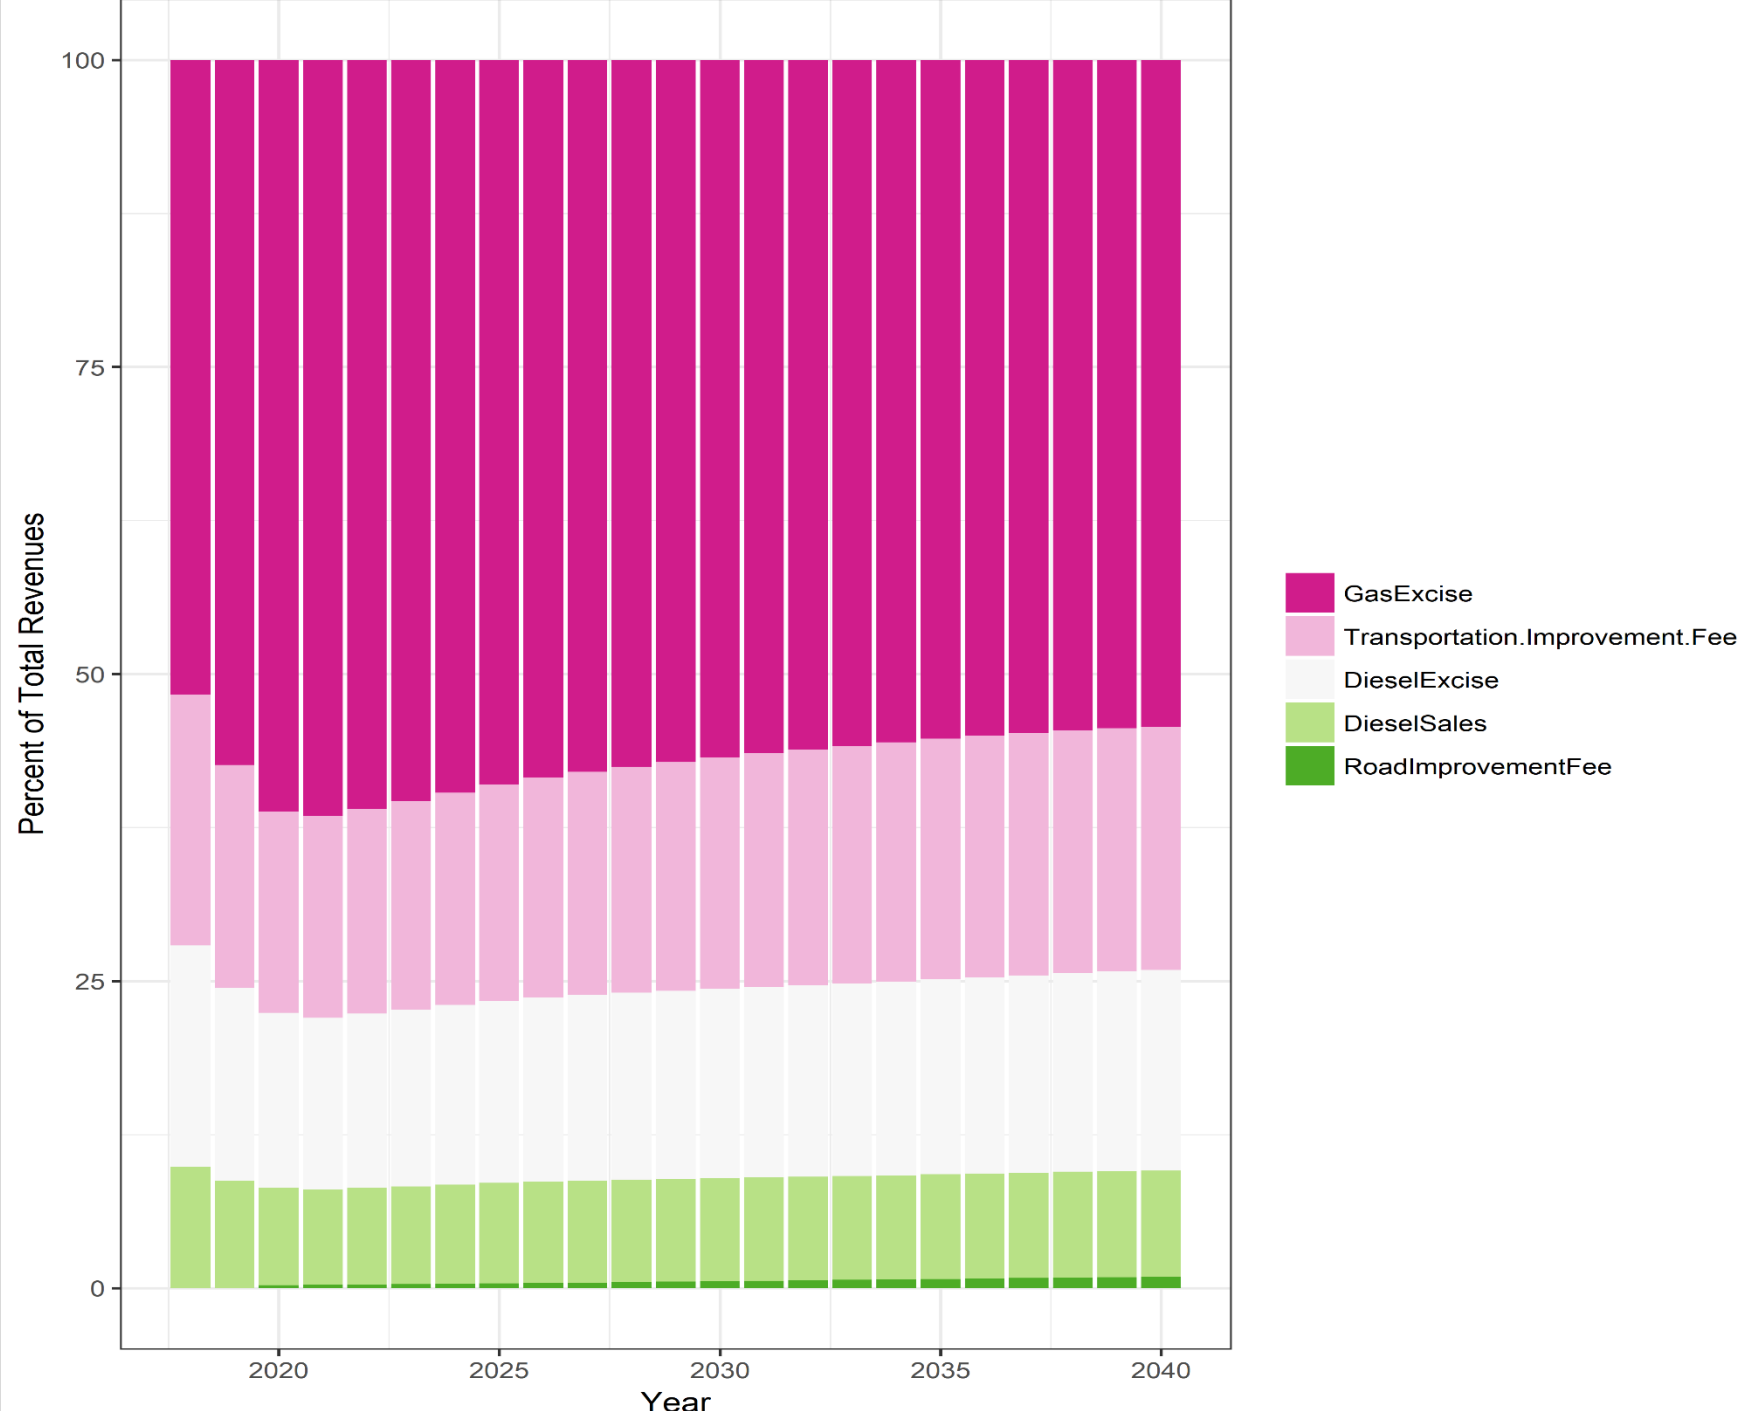

# Annual Revenues, with/without SB1

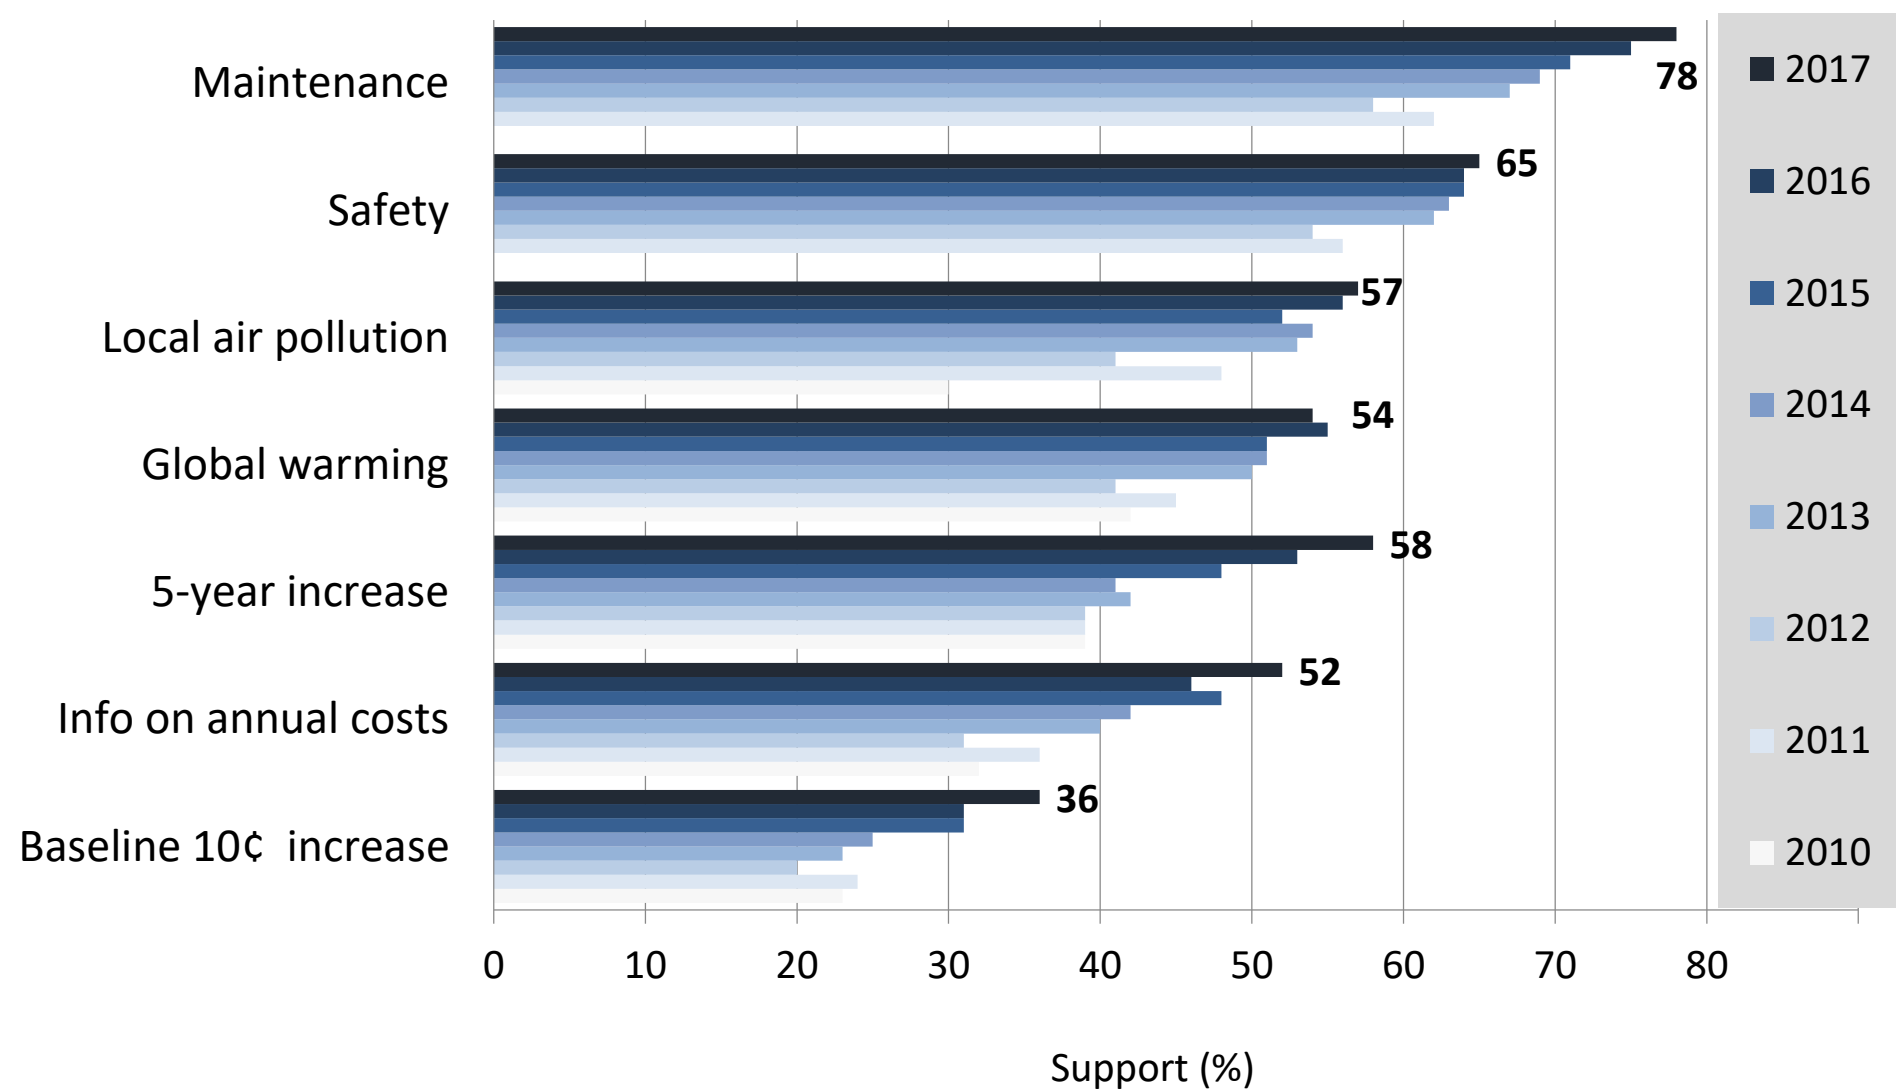

# Projections by Revenue Type

# Contribution by Revenue Type (SB1)

# Support for Federal Gas Tax Increase, 2010-17
